## **Entrance to the Building - From the Front:**

The main guest house entrance is located at the front of the building adjacent to the car park. Vehicles can stop here to drop off passengers and baggage.

The entrance is well lit. There is a small step into the reception area or alternatively there is a side door which leads directly into reception for guests in wheelchairs. Guests who require to use the reception side door will be given a key so that they can come and go as they wish.

For guests with mobility issues there is a designated car parking space outside the main entrance so that access in and out of reception is trouble free.

## **Toilet Facilities**

Toilet facilities are on the ground floor in the same location as our guest laundry room.

Whilst this toilet facility is located on the ground floor and is easily accessible, it has not been fully adapted for wheelchair users.

## **Bedrooms**

We have 2 bedrooms on the ground floor, both of which have level access. One of these bedrooms is our family room which has a king-sized bed and single bed within the room, plus a seating and is large enough for guests who have mobility issues but do not require a wheelchair. Our fully accessible room has a large bathroom with a wet room shower. A toilet frame and a shower seat are available on request. We do not have a hoist.

## **The Breakfast Room**

This is off the main reception area with no steps and is easily accessible for guests with mobility issues and wheelchairs.

## **Our Holiday Homes.**

As well as a guest house we have holiday homes at Bridleways, a bungalow cottage and 4 large static caravans. These are a short distance from the car park and are suitable for guests with mobility issues but would not be suitable for wheelchair users.
