

All spooky facts supplied by The Nottingham Ghost Walk. For more details about the Walk visit www.thenottinghamghostwalk.co.uk

Join us here for storytelling from 2pm-3pm – a spooky way to round up your day.

A one-armed highwayman haunts the pub too. A former landlord also remains; he managed to accidentally poison his entire family with arsenic, whilst trying to rid the pub of rats, his family survived but he did not.

Whilst this terrace was in use as the former Nottingham Costume Museum, many people complained of deep feelings of sadness so much so that the office was emptied and left alone.

YE OLDE SALVATION INN

A little girl called Rosie haunts both the caves and the ground floor of the Sal. She is thought to have been a resident of the Sal and is the most seen ghost on the ghost walk.

When parts of the Churchyard were sold off during the mid-nineteenth century, workers there were plagued by all manner of strange and haunting phenomena. They later uncovered a mass burial pit - most likely a plague pit - which was crammed with thousands of human bones. The bones were sold and ground up to make mortar for a bank on Low Pavement.

ST NICHOLAS' CHURCHYARD

The Fertility Chair, which will make any woman who sits in it pregnant within the year - it supposedly has the same effect on a wife/girlfriend if a man sits in it too.

CASTLE GATE

The Haunted Gallion, which is said to bring about the death within the year of anyone interfering with it.

YE OLDE TRIP TO JERUSALEM

SPOOKY FACTS
