On Saturday 25th July you can try tennis for free, get top tips from, and meet the world's best players. Make sure you pre-register via the website so not to miss out on this fun filled day for all the family!

Why not pick up a racket?

Deaf tennis has a long history in British tennis and playing the sport requires no adaption apart from making sure communication is clear between players, coaches and officials. People can play against other deaf tennis players, and alongside or against friends and family who don't have a hearing impairment.

Nottinghamshire has many tennis venues which run inclusive and impairment specific sessions for all abilities.
