Three extraordinary leaders who have proved that human beings can transform the world through peaceful means

Be the change you want to see in the World – Mohandas Gandhi

Darkness cannot drive out darkness, only light can do that – Martin Luther King Jr

A revolution of character in just a single individual will change the fate of a Nation – Daisaku Ikeda

'Mahatma' Gandhi's civil disobedience and non-violent demonstrations won greater freedom and ultimately independence for 400 million citizens of India after three centuries of British rule. Dr Martin Luther King Jr.'s commitment to peace and justice inspired the American non-violent movement for civil and

human rights, giving voice to the hopes and dreams of the dispossessed throughout the world. Daisaku Ikeda's work as a leading lay Buddhist philosopher, author, educator, humanist, founder and social activist has led to the non-violent democratization of Japan's feudalistic social structures and an international grass-roots initiative of intercultural and interfaith dialogue and cooperation for global peace which has been recognized by the United Nations.

May 12 2005, Lawrence Edward Carter, Sr., Ph.D, Dean, Martin Luther King Jr. International Chapel

The poster features a teal and white abstract background with the names 'Gandhi', 'King', and 'Ikeda' in large, bold, black font. To the right, there are three portrait photographs: Mahatma Gandhi (top, brown background), Martin Luther King Jr. (middle, blue background), and Daisaku Ikeda (bottom, red background). The text is arranged in a clear, organized manner, providing details about the exhibition dates, times, and locations.
